

Parsons Paris Adventure

Charner Ramsey, Holli Mulacek,
Katelyn Matikons, Maryam Daneshvar,
Melina Ives, Pia Bertola and Trinity Minh Duong

Concept

Parsons Paris Adventure (PPA) is a Virtual reality Role-Playing-Game (RPG) about the life and growth of a student attending Parsons Paris University.

The game progresses via assignments (tasks) with various purposes - these assignments are designed around helping other students and interacting with basic aspects of student life.

Scripts / Scenes

Narrative outline, script and scene images

Key

- An interaction with an object will happen when the player selects it
- An object will **glow** when it is time for the player to
- *(action)*
- Path #1
- Path #2
- Path #3

Scene One

The Intro / Parsons Facade

The narrative begins with your character entering the world outside of Parsons Paris. It is here where the player can walk around and view the outside surroundings of the French University.

Standing outside the school is a group of students talking, smoking and relaxing. Two students from this group walk up and introduce the player to the game. From here the player will proceed to walk to the door and interact with the security guard, showing them their ID to enter the building.

OPEN SCENE (prompt: talk to student 1 and select major)

Player: *(enters game)* The player is asked to press a key to start the conversation with student #1

Student 1: *Hi, are you a new student? What's your name?*

Player: types name

Student 1: *Nice to meet you "insert name".*

What are you majoring in?

Players are given a screen with three options to choose from: Art Media and Technology (AMT), Fashion Design and Strategic Design and Management (SDM).

Player: selects their major.

Student 1: *Cool! AMT is a lot of fun but you have to complete all of the assignments to graduate, so good luck!*

Student 1: *Cool! Fashion Design is a lot of fun but you have to complete all of the assignments to graduate, so good luck!*

Student 1: *Cool! SDM is a lot of fun but you have to complete all of the assignments to graduate, so good luck!*

ENTERING THE SCHOOL (prompt: show ID to security guard)

Player: **walks over to front door**

To enter the building the player is asked to press x and then told there is an error because the door is too heavy so they need to try again.

Player then pressed x and door started to open

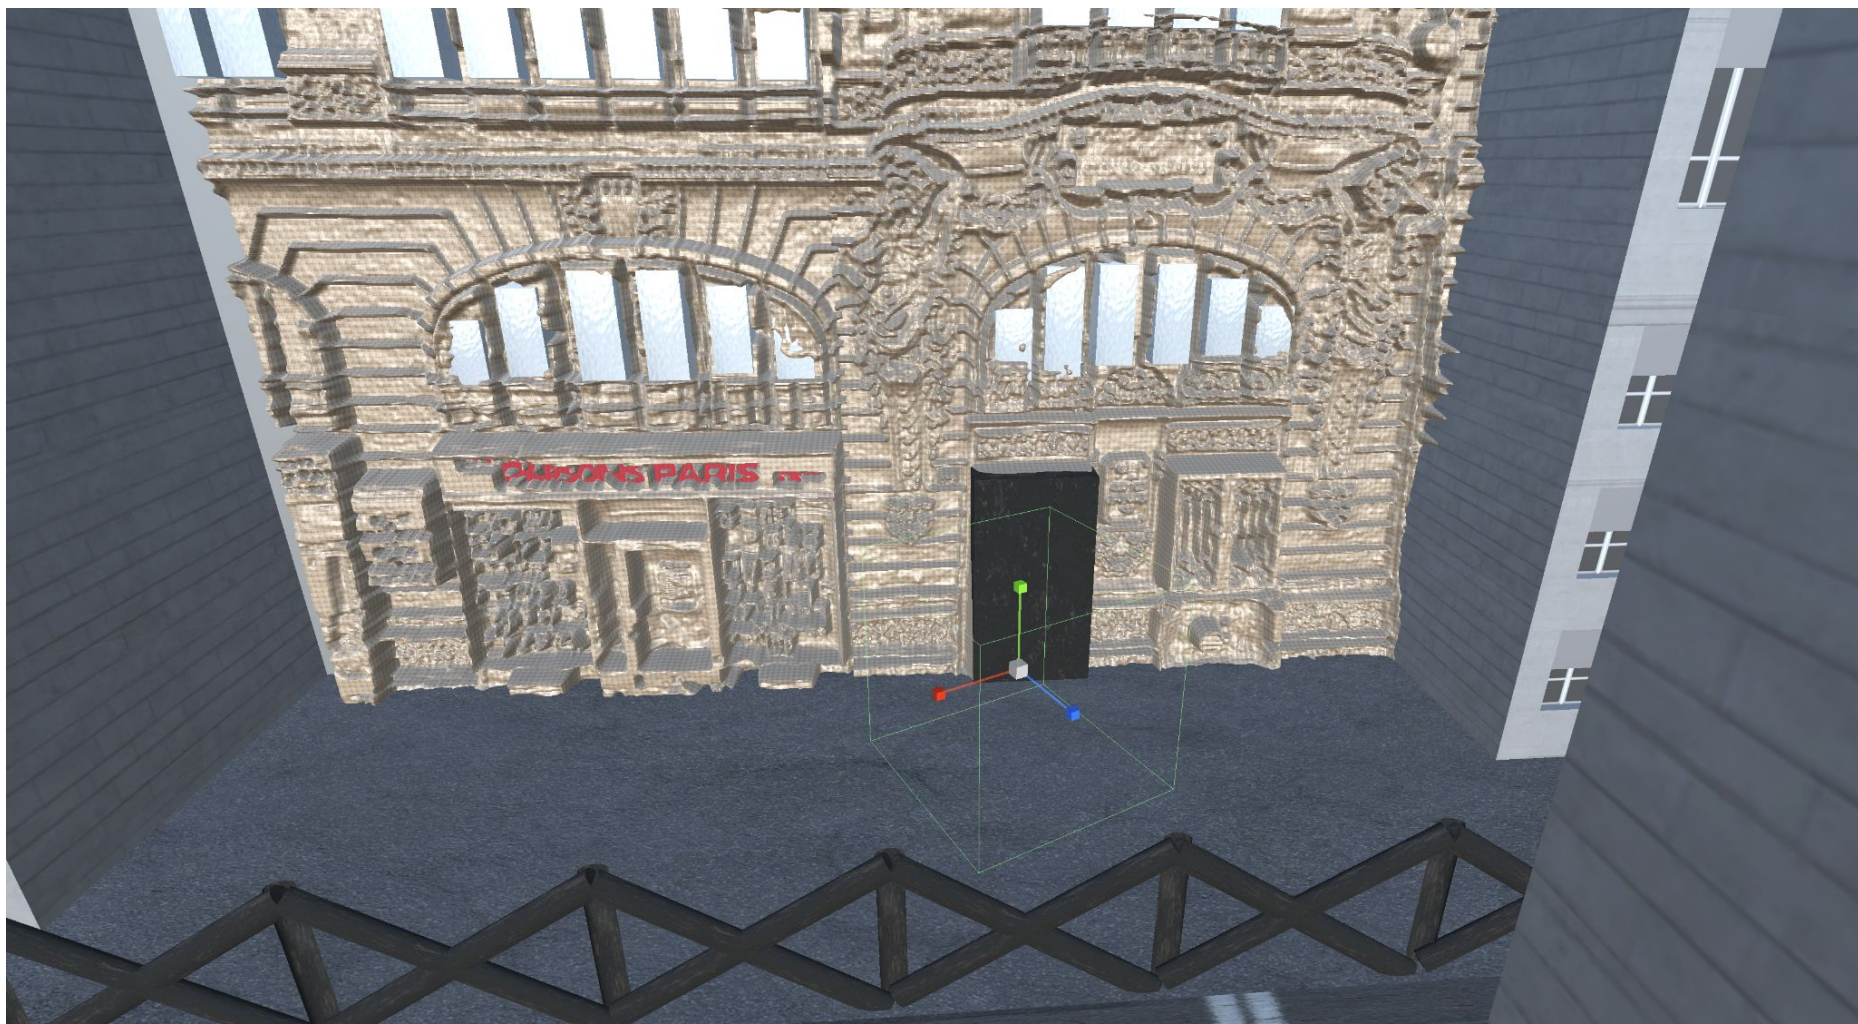

Security guard is seen standing blocking the door.

Security Guard: *ID please*

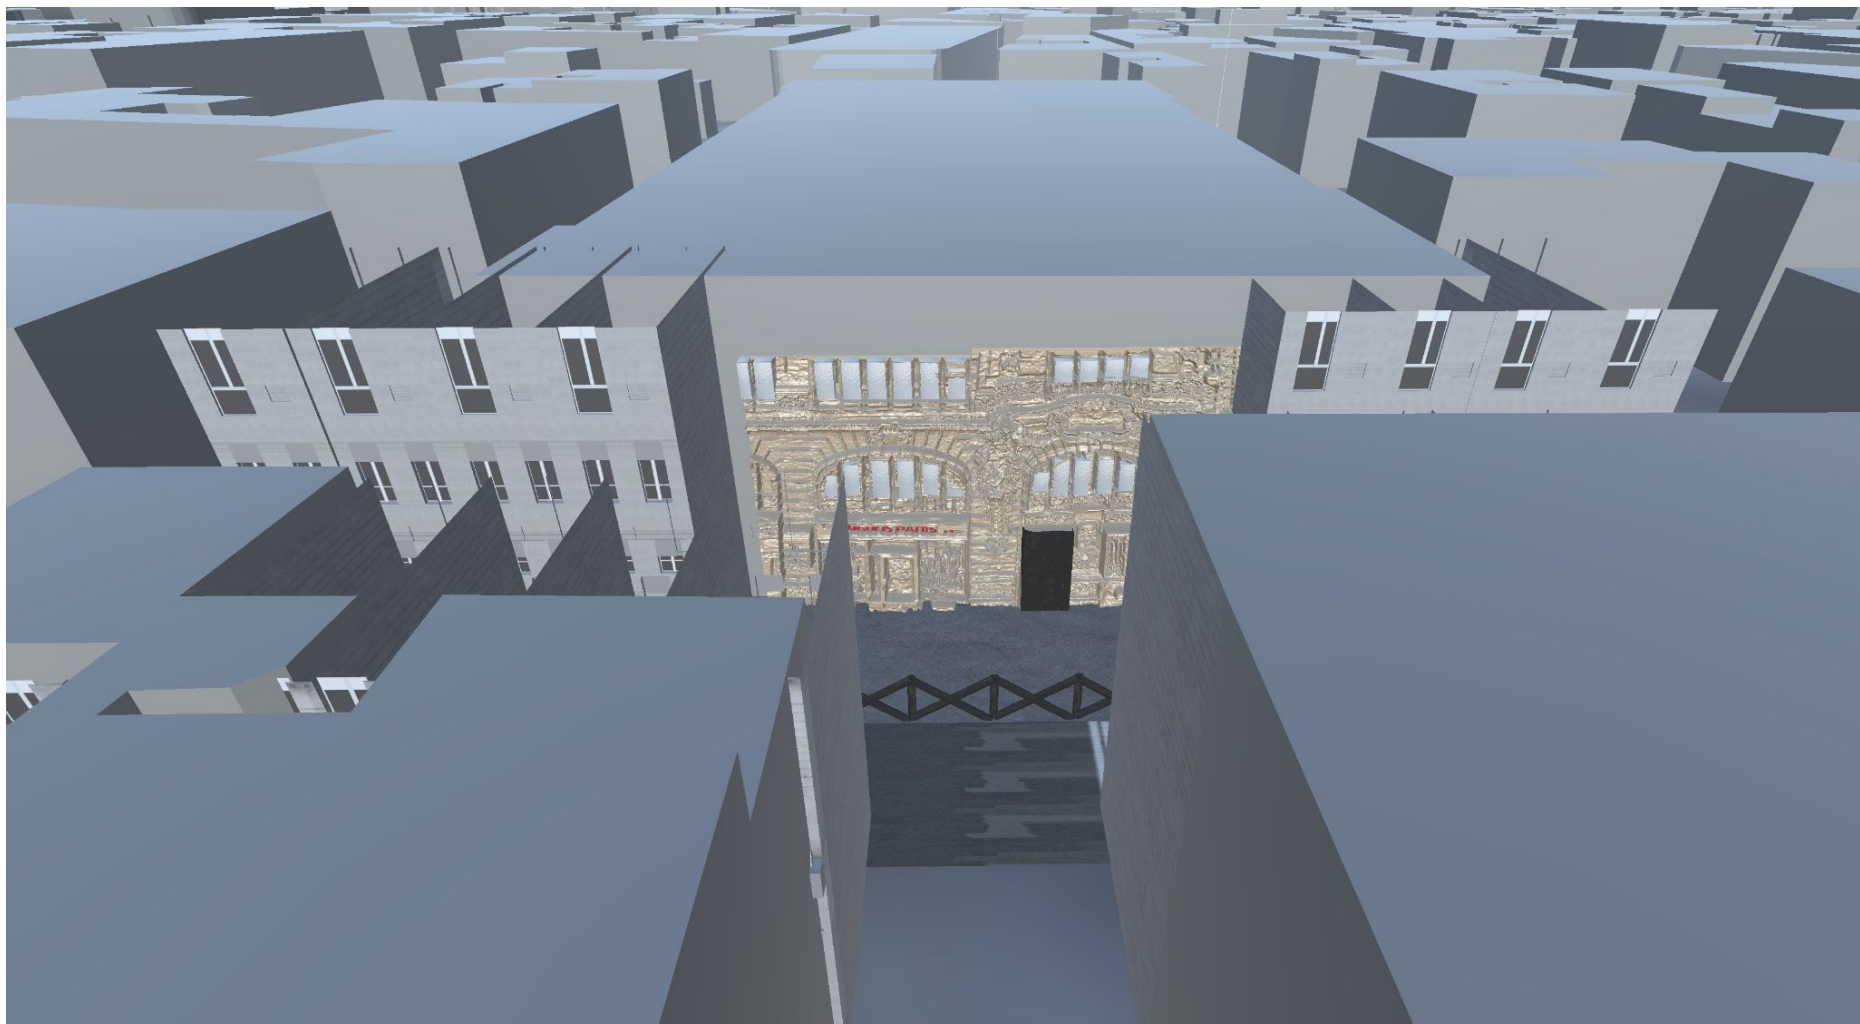

Player: opens inventory and selects **PARSONS PARIS ID**

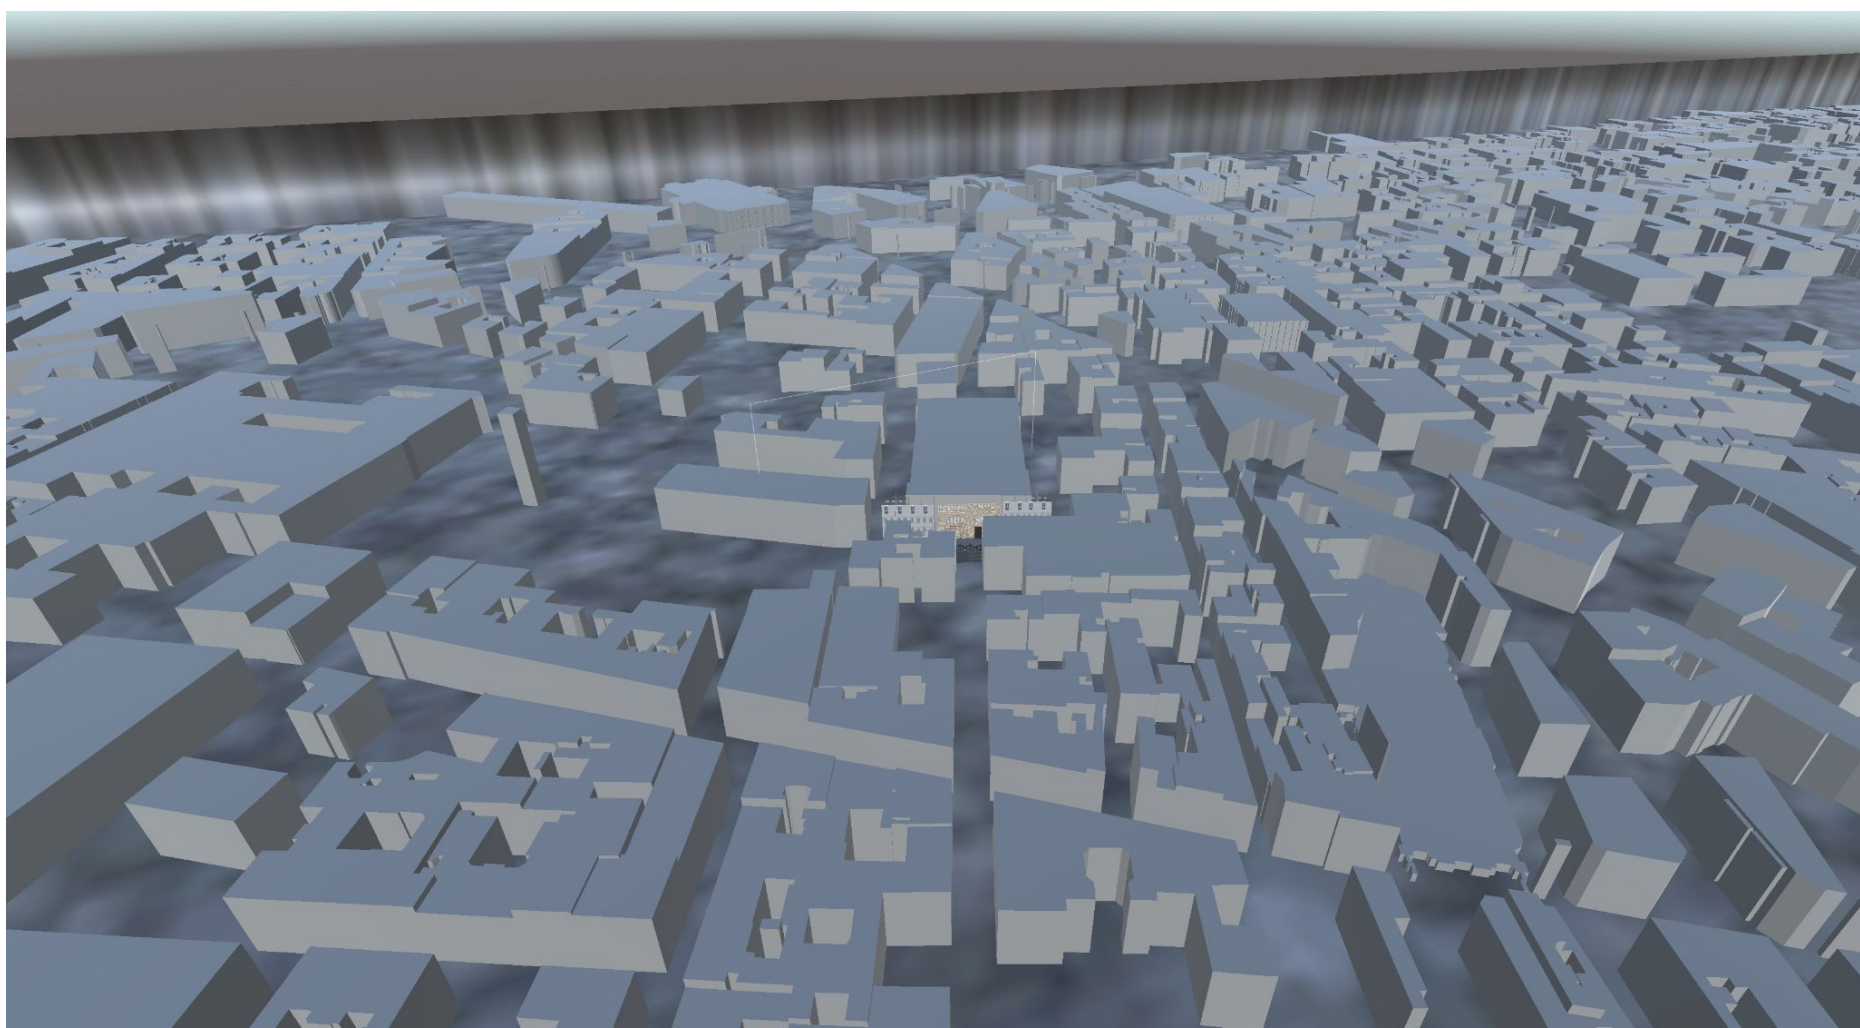

Security Guard: *Thank you, have a nice day.*

player proceeds to walk into building and is then teleported to the tech lab

Scene Two

Main Level / Tech Lab

The narrative follows your character entering the building which will directly transition them towards the tech lab. In the tech lab your character will be approached by a colleague that will ask you a question. Depending on your choice of response one or two, you can either gain two points or lose one. There will then be a transition towards the computer.

When the computer is selected the player will see the Net ID login page where they will enter their name and degree. After this is filled out the computer screen will change to the My New School page. There will be two choices, checking your grades or navigating to google and printing a paper. Depending on the choice you can either gain or lose a point.

Afterwards, the narrative will transition towards a second colleague. The colleague will ask your player a question. Your player must choose to respond in one of two ways and depending on the choice your player will gain one point or lose two points.

The game will transition towards a stapler. Your player will try to staple the paper and recognize that it is empty. Your player is then presented with two different options and depending on the choice they will gain or lose one point. If your player chooses option 2 there will be a prompt that transitions towards a character named Shane

With Shane selected your player will greet him and have to make a choice between two options, depending on your response you can win two points or lose one. Afterwards if your player has collected enough points to graduate, your player will walk towards the window and be transitioned towards scene three.

TECH LAB DOORWAY SELECTED (prompt: print your paper for class)

Player: *(enters tech lab)*

Colleague 1: *(approaches player)* Hey how are you? I heard you might be transferring to New York next year and it made me really sad to hear - I am going to miss you.

Blue Option 1: *What, where'd you hear that? I love Paris!*

Red Option 2: *Yeah, I am feeling like I might want to take Communication Design classes.*

Blue Option 1, Response 1: *That's such a relief to hear, I seriously don't know what I'd do without you. (+2)*

Red Option 1, Response 2: *Aw that breaks my heart, who is going to give me real feedback now?! (-1)*

Transition to **computer**

COMPUTER IS SELECTED (prompt: send your file to the printer)

Player: *(approaches computer)*

Computer: *(Net ID login page)* Type in your name and degree!

Computer: *(screen changes to My New School)*

Blue Option 1: *(get distracted and check **grades**) (-1)*

Red Option 2: *(navigate to **google** and **print paper**) (+1)*

Transition to **colleague**

COLLEAGUE 2 IS SELECTED (prompt: they need your help)

Colleague 2: *Hey _____ do you know how I can print these pages?*

Player: *Hey _____!*

Player Option 1: *Yes of course I can help you print!*

Player Option 2: *No, sorry I've got to get to class on time.*

Colleague 2, Response 1: *Yay thank you so much! (hugs player) Apparently us fashion students are helpless in the tech lab, hahahaha. (+1)*

Colleague 2, Response 2: *Okay, well see you around then. (-2)*

Transition to **stapler**

STAPLER IS SELECTED (prompt: staple your paper)

Player: *(tries to staple paper)*

Stapler: *(empty) Looks like we're out of staples!*

Player Option 1: *(shrugs) Who cares anyway, this is art school. (-1)*

Player Option 2: *It would help everyone if I refilled the stapler. (+1)*

Player: *(exits the tech lab)*

Option 2 Prompt: *Maybe Shane knows where the staples are?*

Transition to **Shane**

SHANE IS SELECTED (prompt: make Shane like you)

Player: *Hi Shane!*

Shane: *(vaping) Hey _____ what's up?*

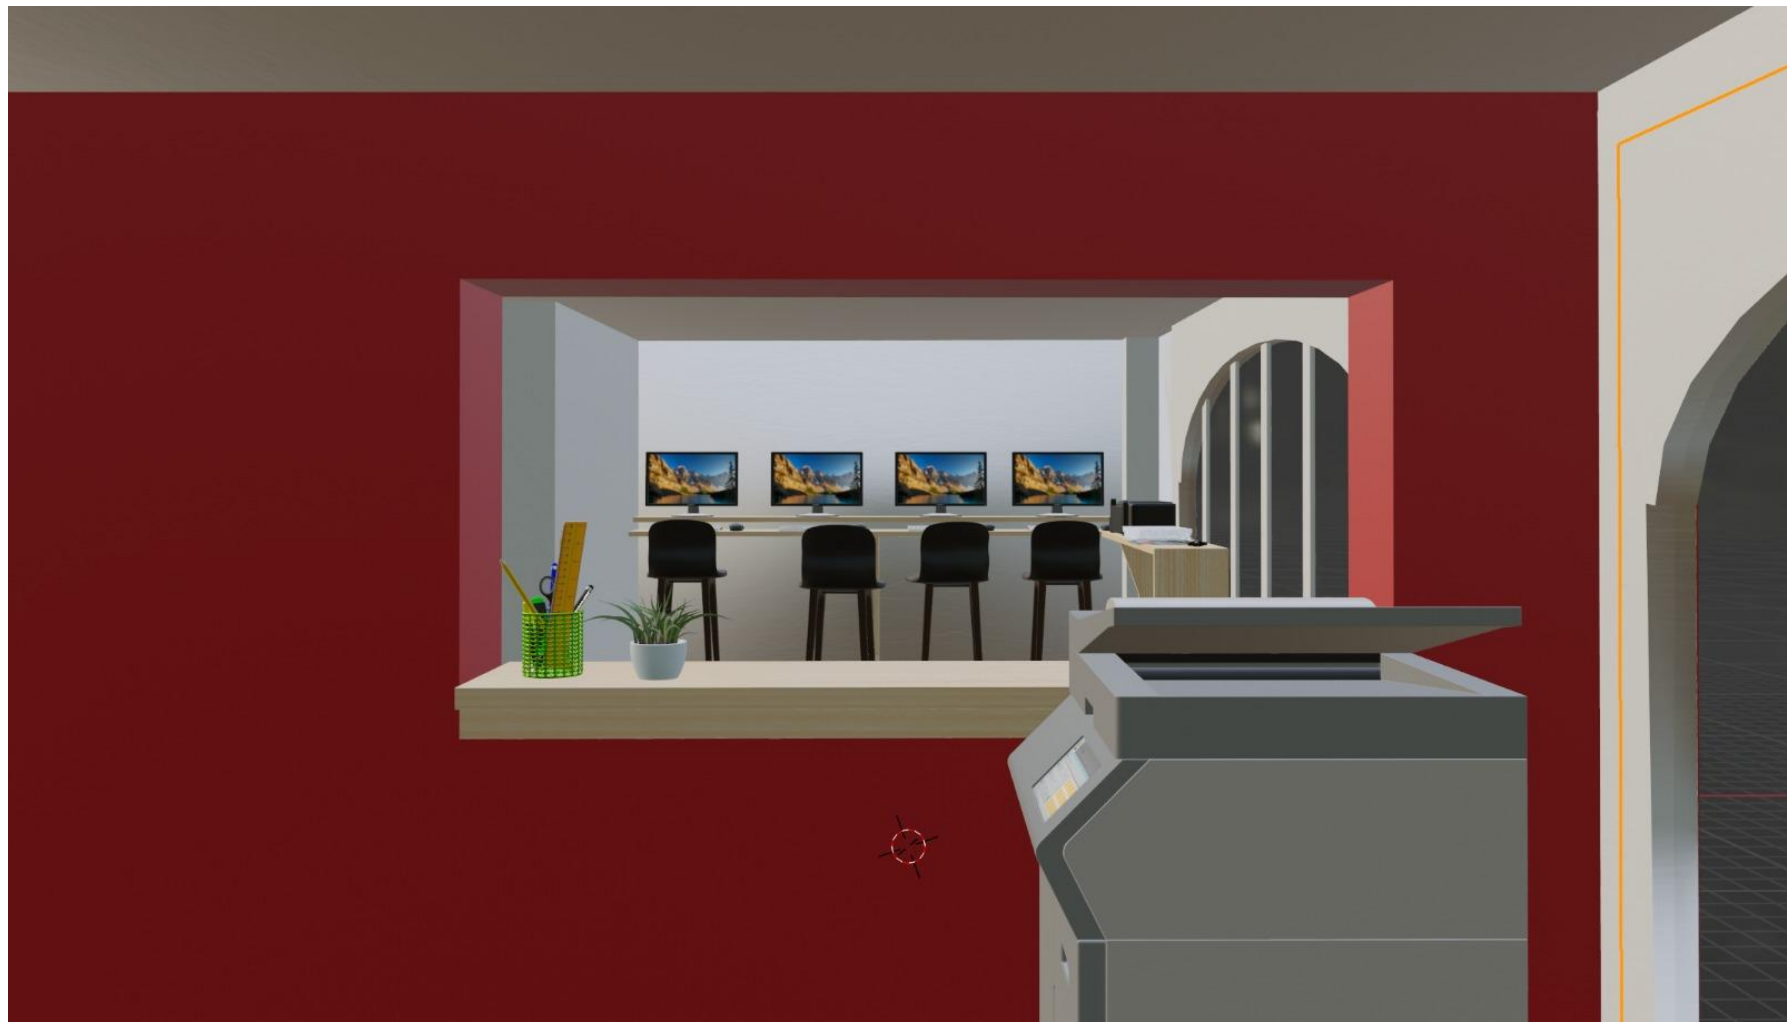

Player Option 1: *I found a new album I think you would like.*

Player Option 2: *Can you help me record some audio for a project?*

Shane Response 1: *Sick! Thanks for sharing, I've been looking for some new bops! (+2)*

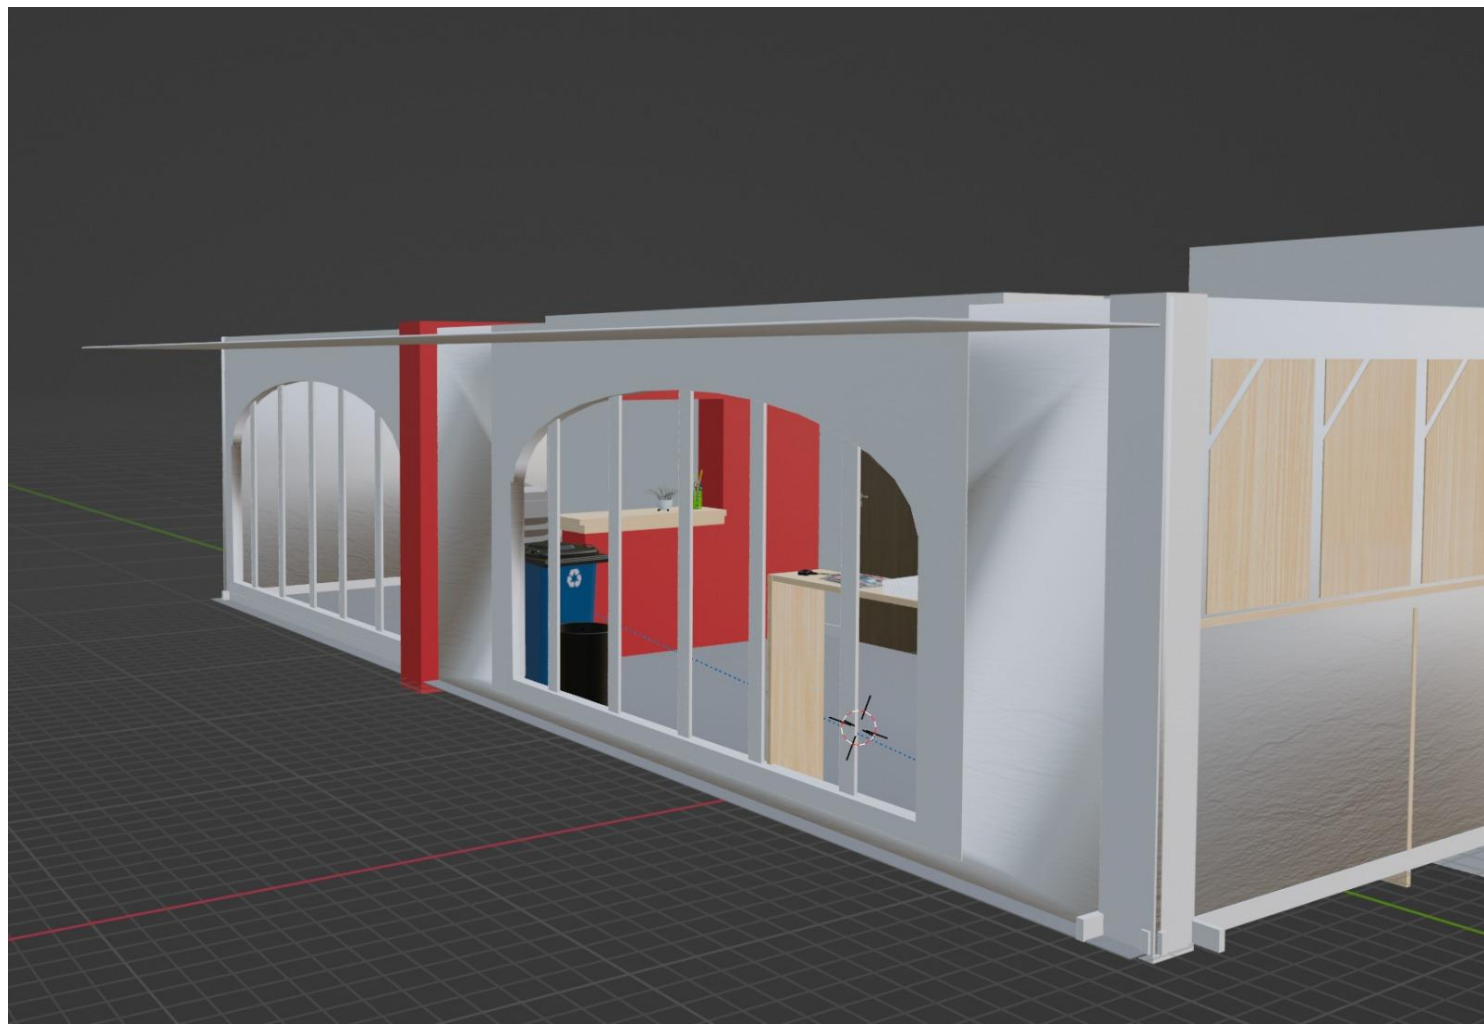

Shane Response 2: *(annoyed) Yeah it's going to be a little while though. (-1)*

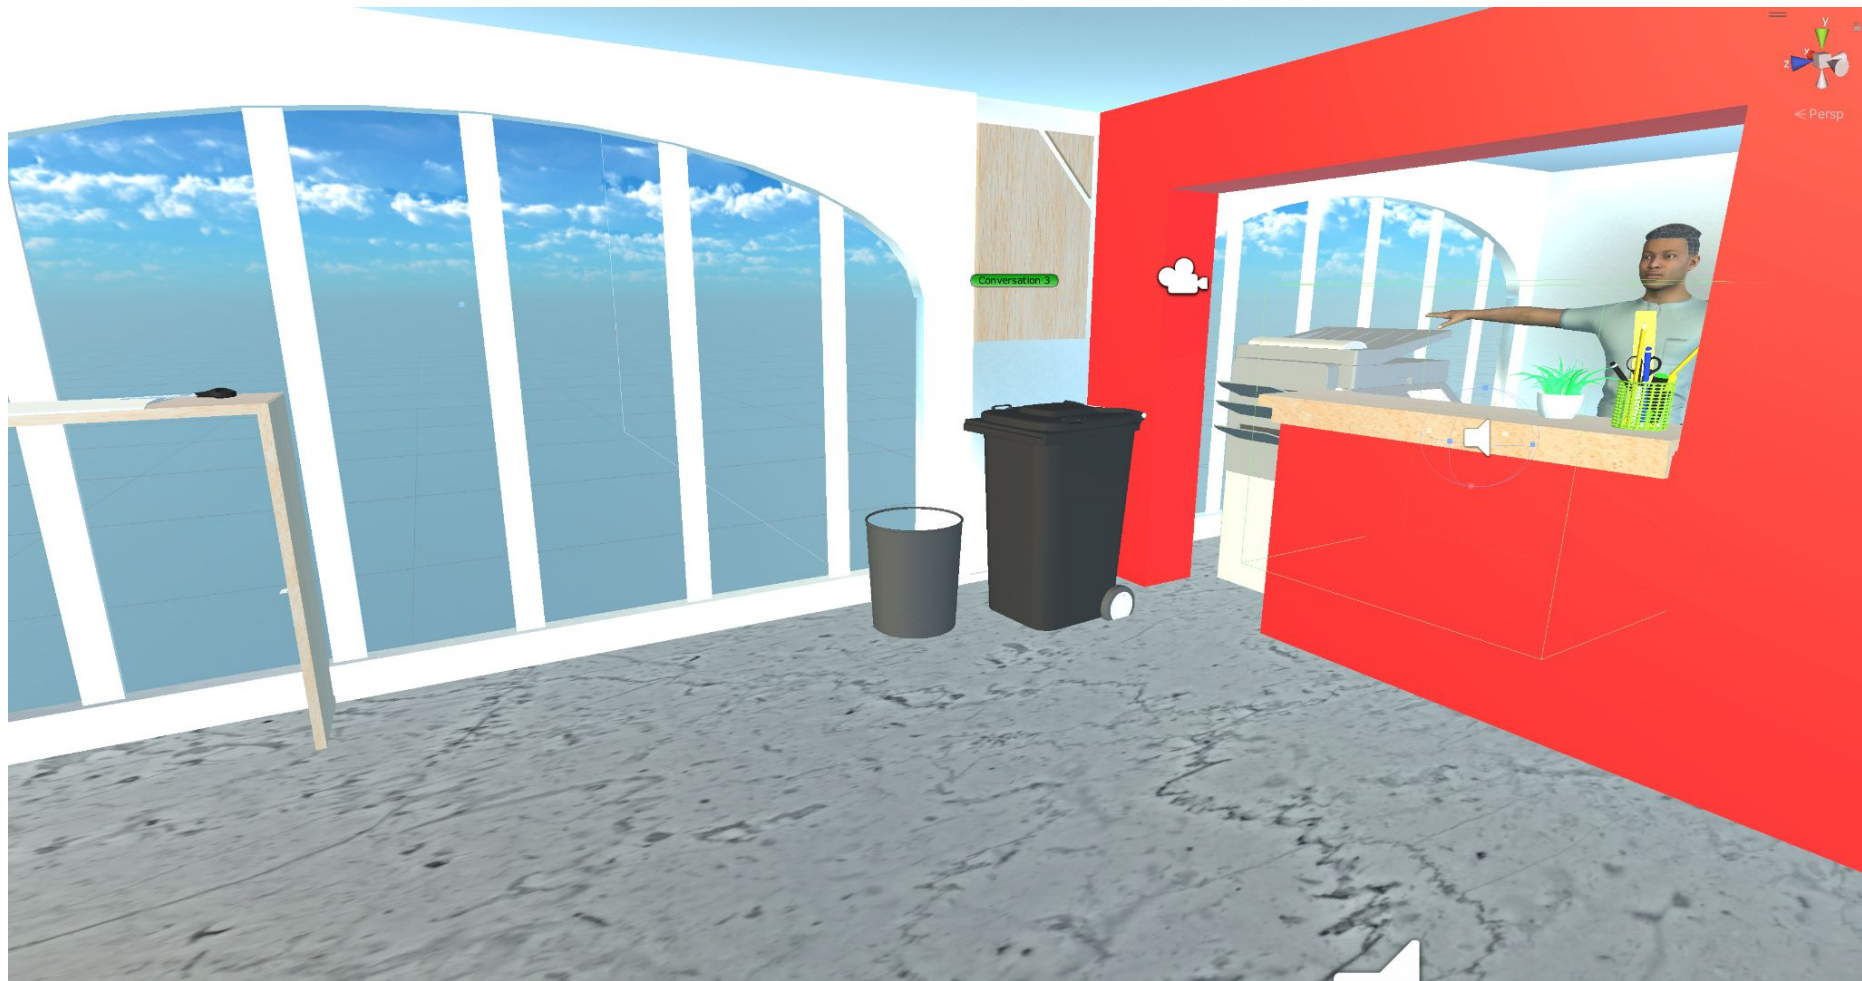

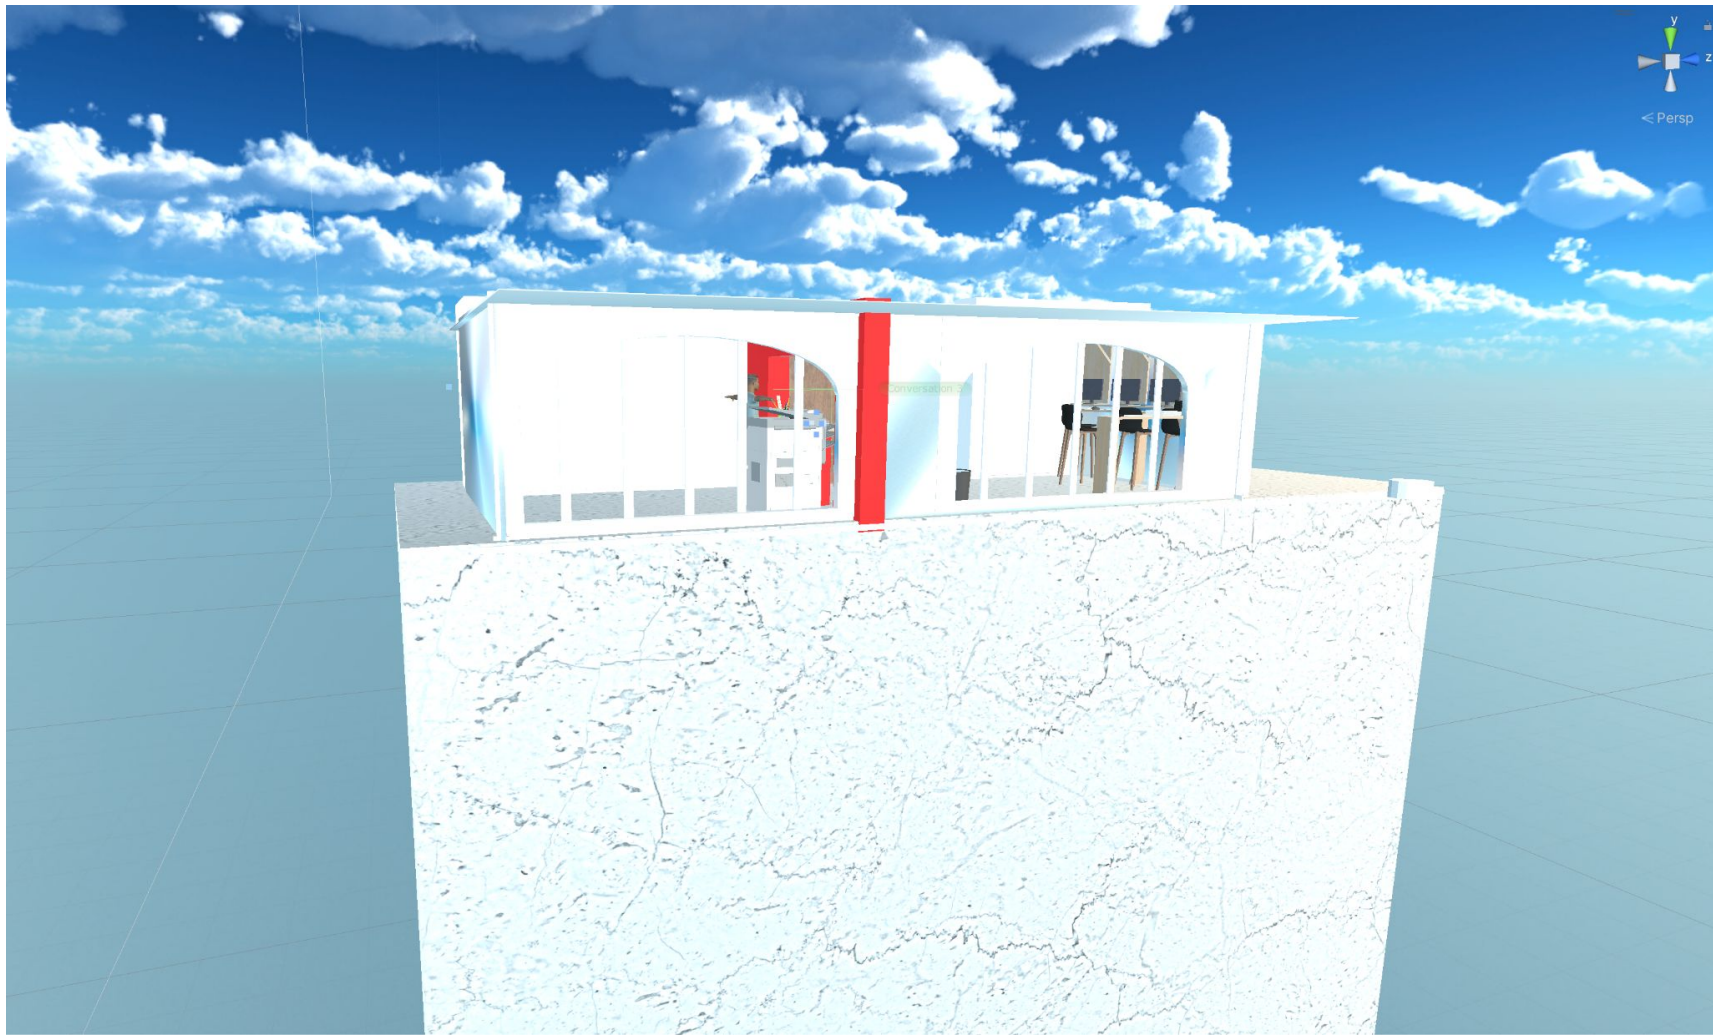

Scene Three

Finale / Graduation

The narrative follows your player entering the rooftop. There is an applause soundtrack and two colleagues that greet and congratulate your character. A character, Virginie Grillet, approaches your player and congratulates you while expressing her joy in your perseverance and hard work. She presents you with a Parsons Paris Bachelor's degree.

You are then transitioned towards a page showing your player's degree. On the degree you can see the Parsons Paris logo and quotes that affirm your graduation. You are then transitioned back towards Virginie. She expresses she can't wait to see what's next for you and raises her glass for a cheer. Sounds of applause play as the screen fades to the Parsons Paris logo.

GRADUATION DOORWAY SELECTED

Player: *(enters rooftop)*

applause soundtrack

Colleague 1: *You made it!*

Colleague 2: *[Player name] there you are!*

Virginie Grillet approaches: *Congratulations [Player name]!*

: Thanks to your perseverance and hard work you have passed all your classes!

: We are pleased to present you with your Parsons Paris Bachelor's degree!

Transition to **degree** (scroll)

DEGREE IS SELECTED

Scroll:

Parsons Paris logo

THE FACULTY OF PARSONS PARIS HAS CONFERRED THE DEGREE OF BACHELOR OF FINE ARTS UPON [Player name] WHO HAS HONORABLY FULFILLED ALL THE REQUIREMENTS PRESCRIBED BY THE UNIVERSITY FOR THAT DEGREE

DONE AT PARIS, FRANCE THIS SIXTEENTH OF JUNE IN THE YEAR TWO THOUSAND AND TWENTY TWO A.D.

[BRIDGET'S SIGNATURE]

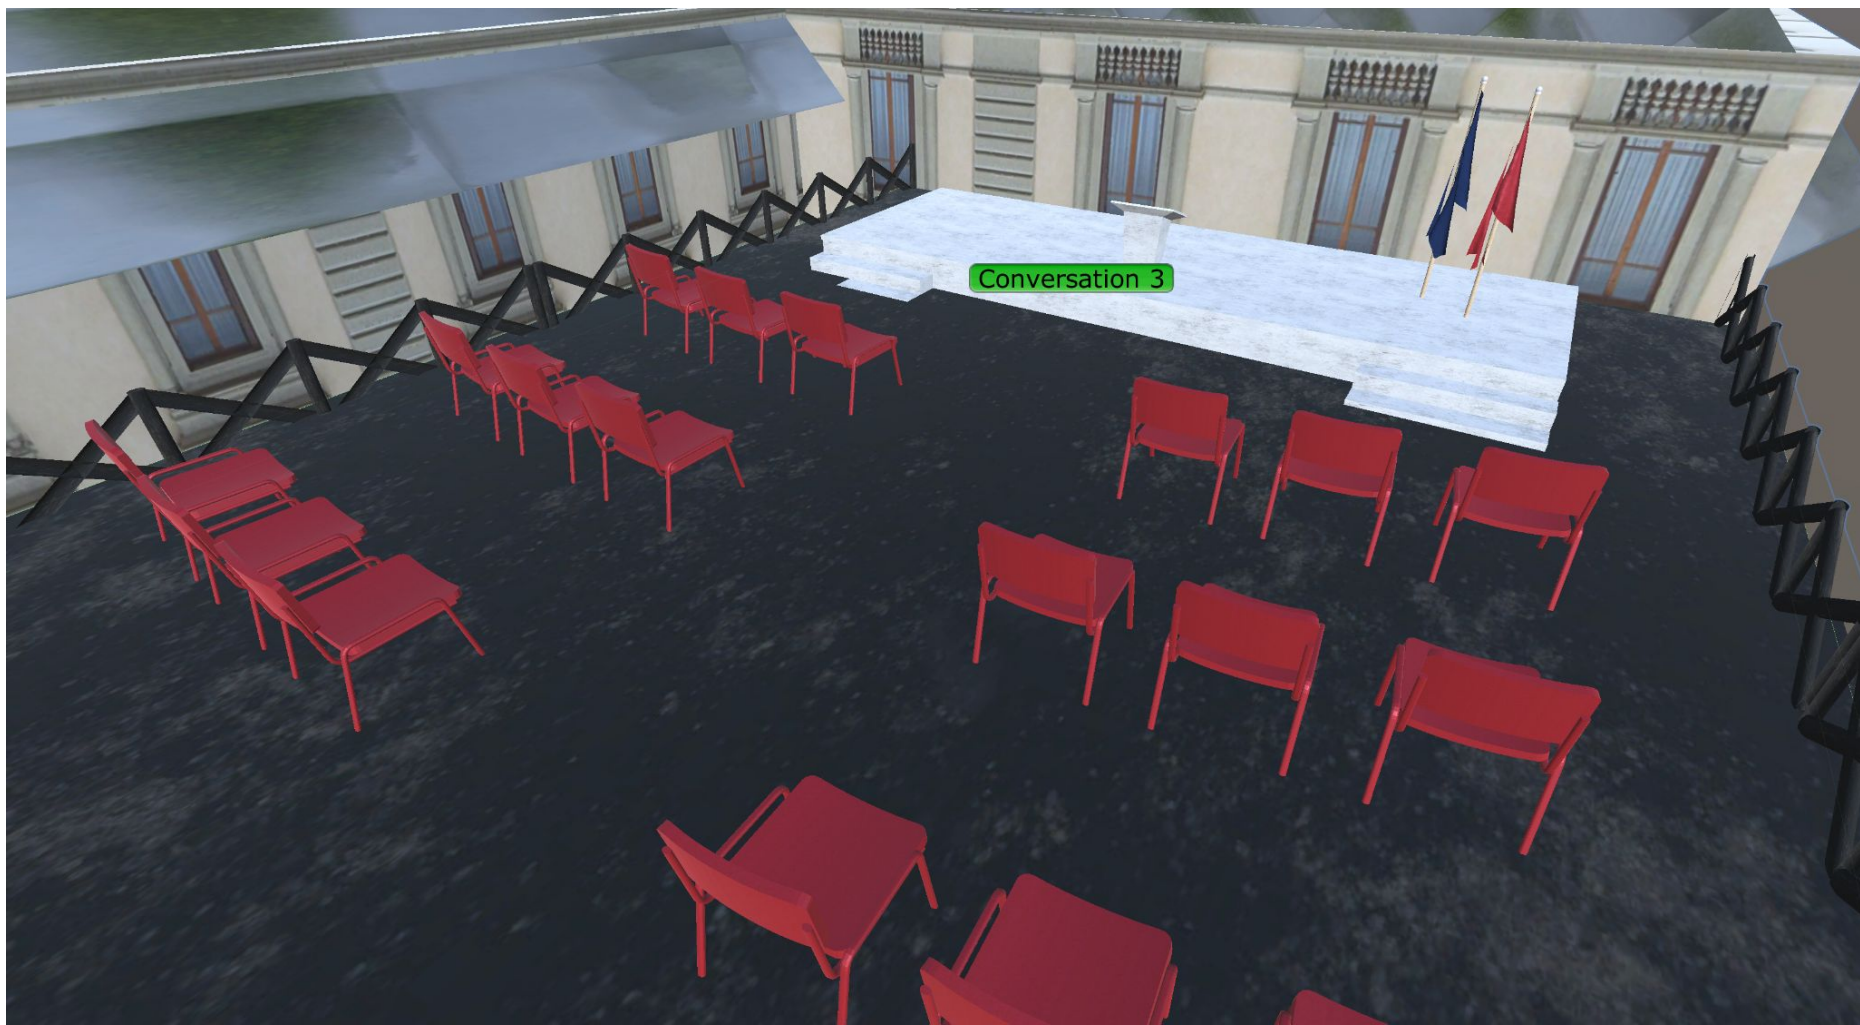

Transition back to **Virginie**

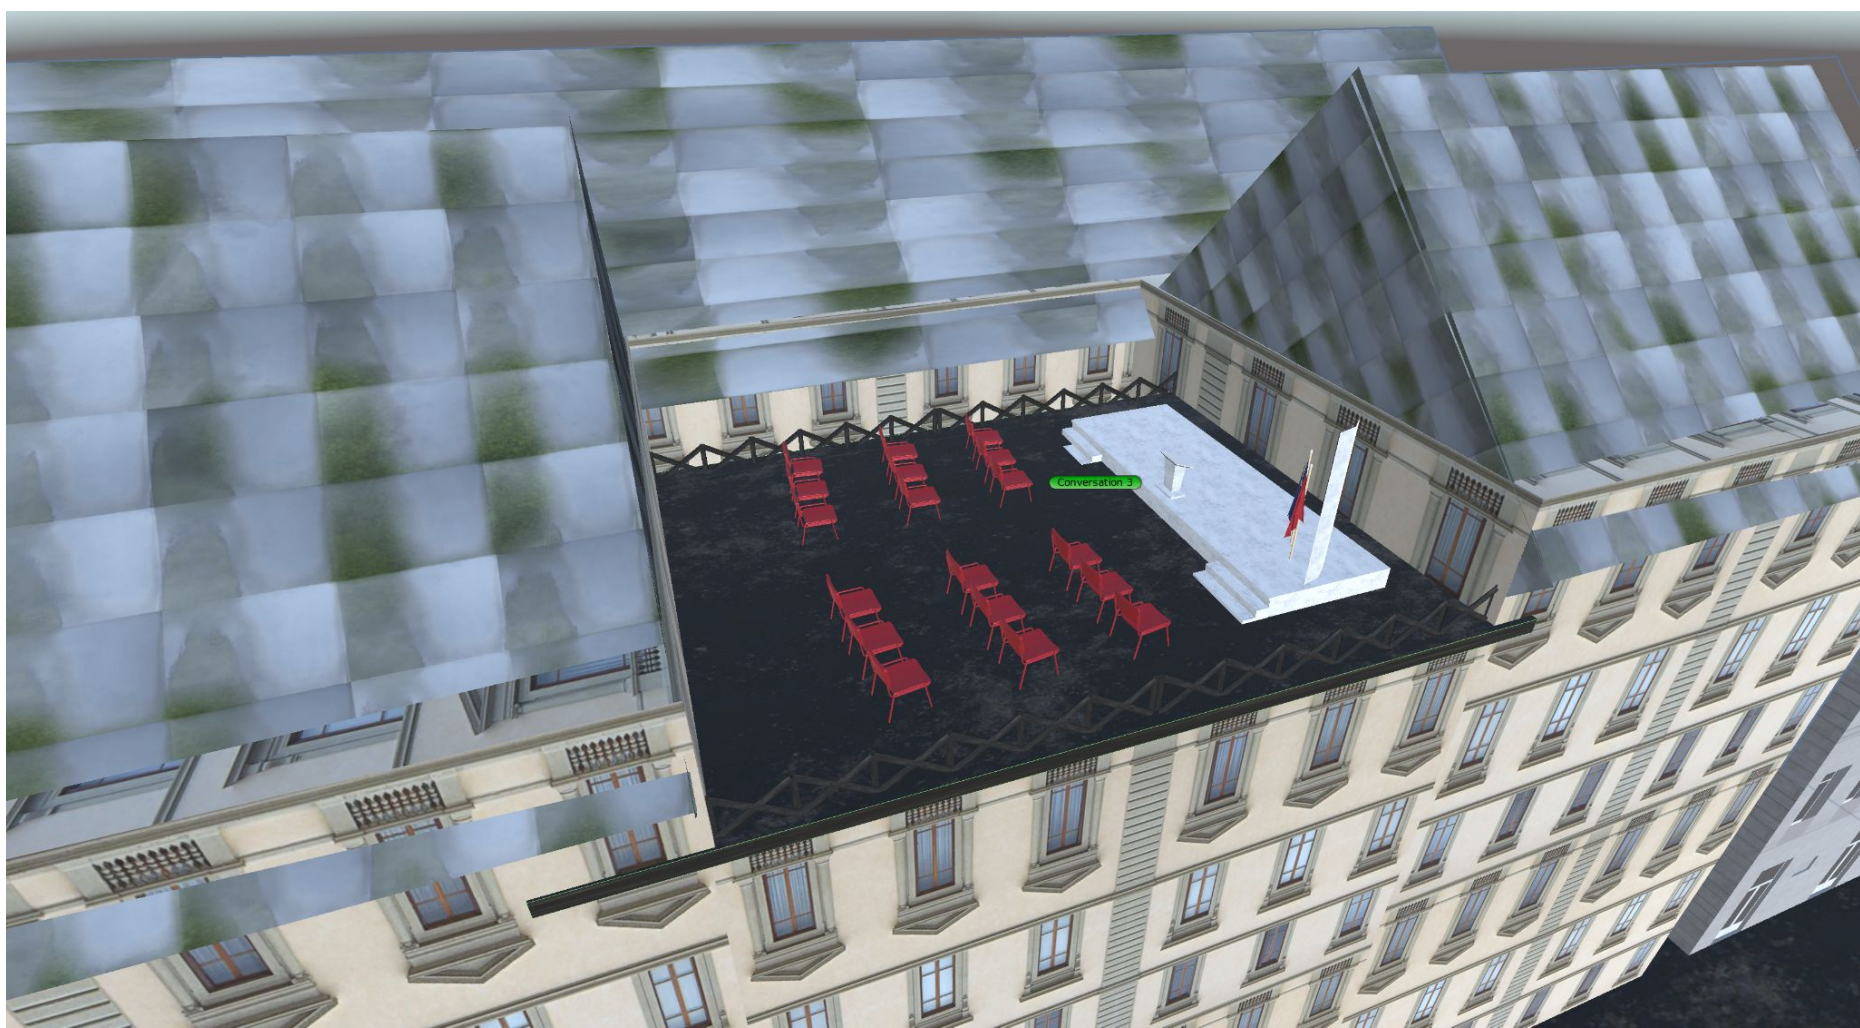

Virginie: *We can't wait to see what's next for you! Let's raise a glass*

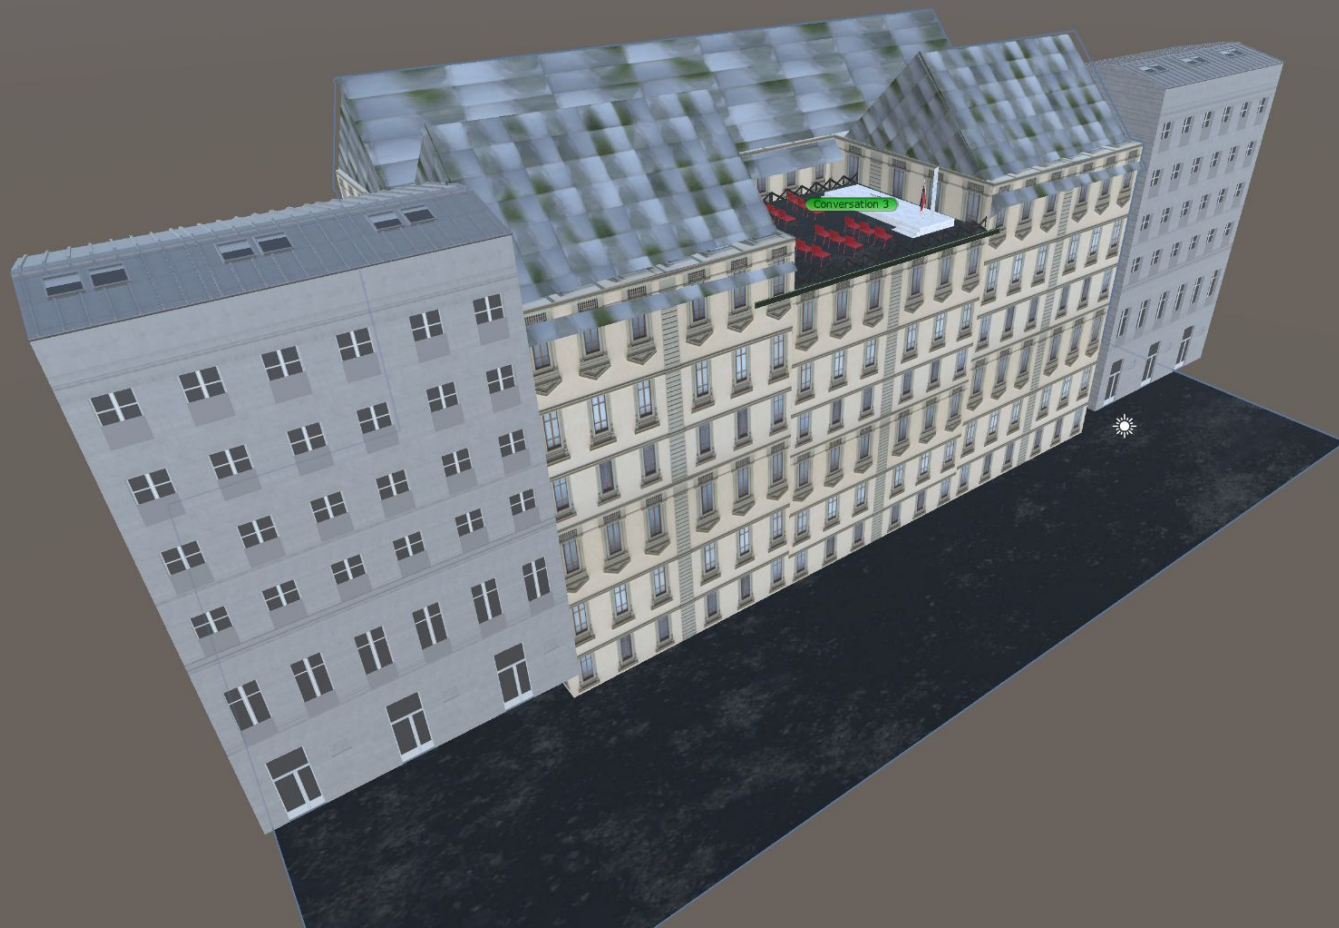

(raises glass) : Cheers!

Applause soundtrack

(Logo og Parsons Paris appears) : On to the next chapter

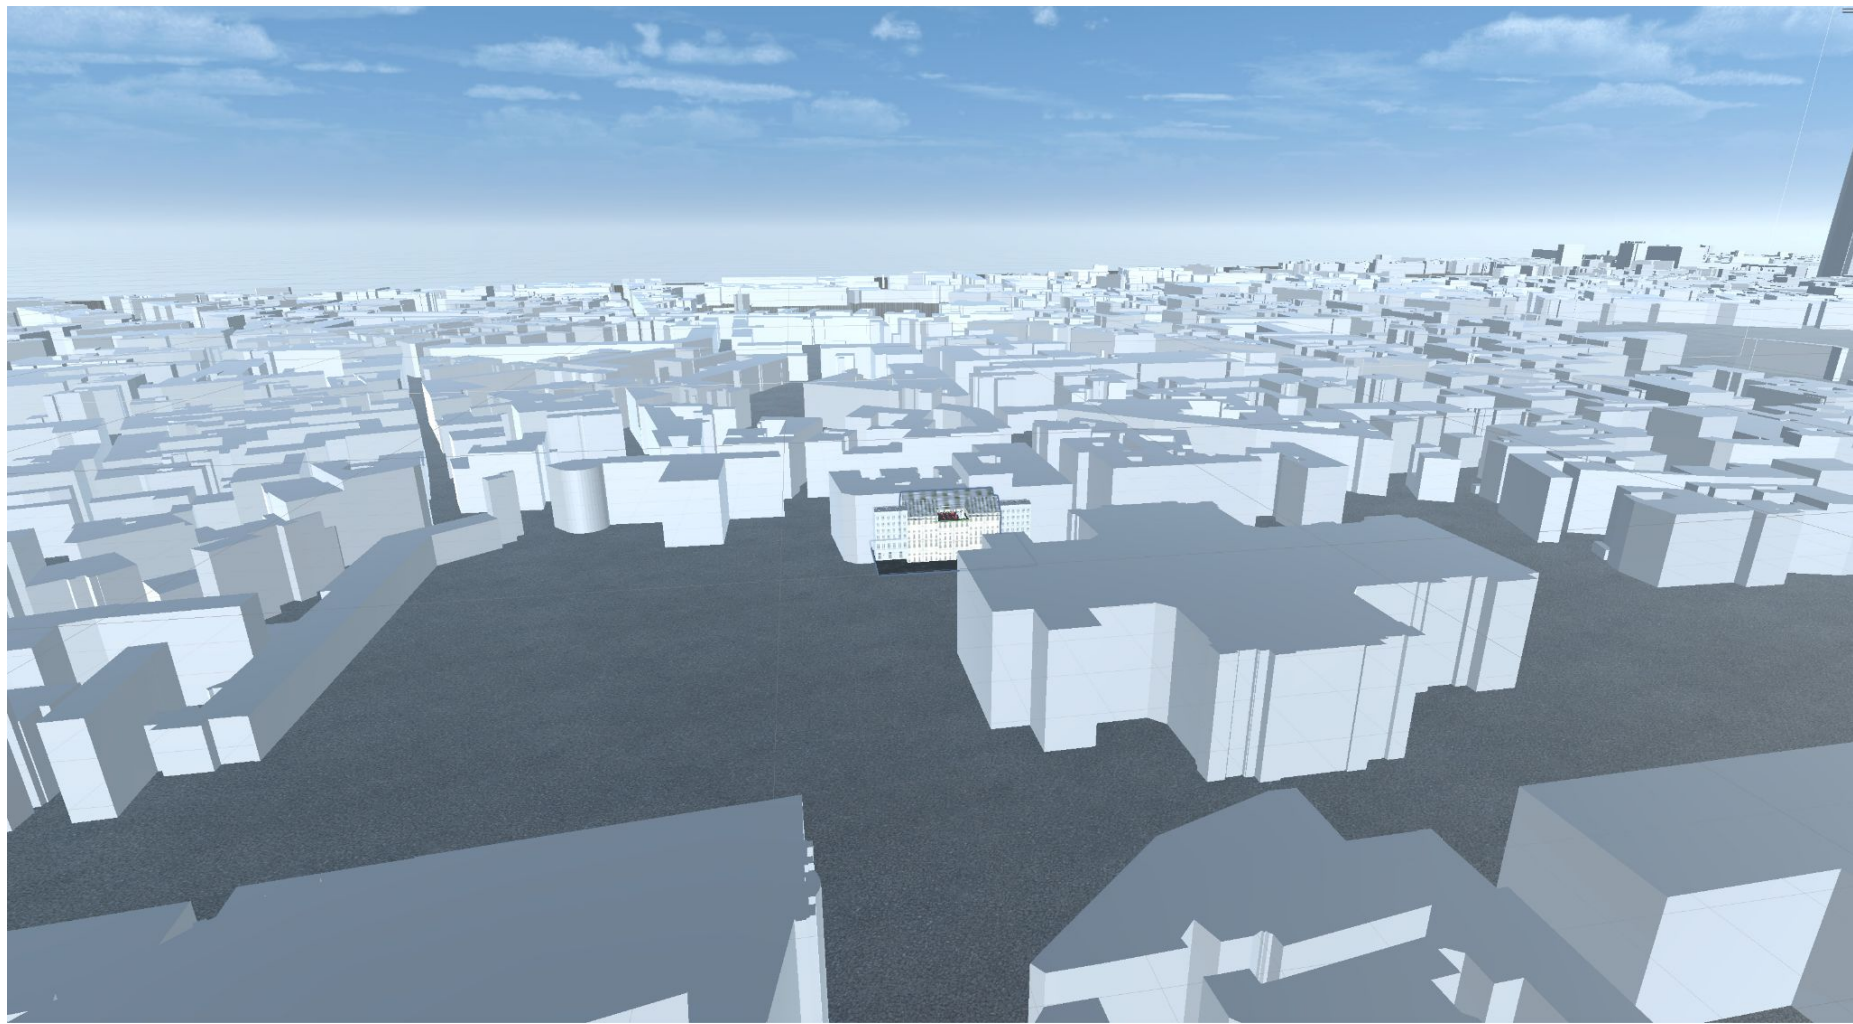

Conclusion

How we organized ourselves, what programs we used

How we managed our work

EACH PERSON'S ROLE

PIA	3d object and scene modeling, and helping with interface design
KATELYN	scene modeling - creating game scenes, & creating logo
MARYAM	sound, and interface design (instructions during game)
TRINITY	narrative write up, design of splash image
MELINA	characters (modeling & animation), and helping with scene building
CHARNER	scene modelling - creating game scenes
HOLLI	3d object modeling (and animations for them), write up for narrative help

WEEK 1 TASKS (week 1 - compiling all resources)

PIA	List of objects needed for game with reference links, unity assets
KATELYN	game name and general "vibe", & making moodboards, unity assets
MARYAM	3d scanning parsons elements - narrative
TRINITY	narrative write up on mila board - narrative
MELINA	taking nice pictures for reference of parsons classrooms/scenes -narrative
CHARNER	moodboards of colors, themes of game
HOLLI	List of objects needed for game with reference photos - narrative

WEEK 2 (Set up of scenes with objects, etc) (Start over break)

PIA	modeling objects, starting scene modeling
KATELYN	help charner with scenes, and work on logo
MARYAM	collect all sounds needed, help with narrative write up
TRINITY	start final write up of narrative - formal doc
MELINA	making all the human characters
CHARNER	modeling the scenes
HOLLI	modeling objects (with animations)

WEEK 3

(Animations, interactions, sounds) - (and all objects and scenes combined on unity)

PIA	Finishing modeling for scenes 1+3
KATELYN	Finishing modeling for scenes 1+3
MARYAM	Interface problem solving, sounds for game
TRINITY	Write up of game, presentation prep
MELINA	Characters modeling and 3D scanning
CHARNER	Tech Lab scene modeling
HOLLI	Narrative write up

WEEK 4

(Debug, finish)

PIA	Finishing dialogue and interface for scenes, all in unity
KATELYN	Finishing dialogue and interface for scenes, all in unity
MARYAM	Interface research problem solving, sounds
TRINITY	Narrative write up
MELINA	Character animation in unity, packaging
CHARNER	Tech Lab unity packaging, interface set up
HOLLI	Complete presentation and narrative

Programs used

Used for building and generating the game

Building scenes, objects and basic layouts

Sourcing sounds

Creating characters

Sourcing items and animations

Our group semi successfully simulated the experience of a Parsons Paris AMT undergraduate student. We effectively modeled scenes that accurately resemble spaces at the Parsons Paris campus, and simulated everyday scenarios that students encounter, including speaking to fellow students and people who work in the tech lab.

If we had more time/could go back:

- We would've made the game more advanced by giving other options (major choice, more conversation, more challenging and detailed tasks)
- We would have included more options to interact with objects and assigned tasks related to object interaction.
- Modeled more accurate scenes like the tech room
- Create an escape room

Merci!

HAGS & KATS!!
